# The Need for AI in Education

## Challenges Faced by Institutions Today

### High Volume of Student Queries

Repetitive questions overwhelm faculty.

### Delayed Responses

Slow communication affects student satisfaction.

### Lack of Personalized Support

Students expect instant, tailored responses.

### Manual Workload on Staff

Admissions, fee queries, and course details consume valuable time.

## How Converse AI Solves These Issues

### AI Chatbots

Handle 90% of common student queries.

### Automated Notifications

Keep students informed.

### Instant Query Resolution

Enhances student engagement.
